TRANSACTIONS AFFECTED BY REG D

Transaction	Explanation	Reg D Action
Overdraft Protection*	Transfers made from a share account to a share draft account, to cover a check, pre-authorized debit, a payment initiated by bill payer, or a transaction initiated at an ATM or POS.	When the item is presented for payment on the share draft account and you do not have funds available in that account, your overdraft protection will not cover them if you have already had 6 Reg D transactions for the month on all share accounts enrolled for overdraft protection. The item will be returned unpaid and an NSF fee will be charged to your account.
Audio Response Transfers, Mobile or Internet Banking Transfers	Transfers from a share account to another share or share draft account through our Tellerphone, Mobile Access or PC Access system.	After you have reached a total of 6 Reg D transactions for the month on the share account selected for the transfer, your request will be rejected.
ACH Debits	Pre-authorized payments from a share account to pay a third-party item (i.e.: PPL bills, mortgage payments, or insurance payments).	When 6 Reg D transactions have been reached in a given month on the share account selected for the ACH Debit, your ACH Debit will be returned unpaid to the originator and an NSF fee will be charged to your account.
Employee Assisted Transfers	A request by a member to any of our employees over the telephone to perform a transfer transaction from a share account.	After reaching 6 Reg D transactions for the month on the share account selected for the transfer, the employee will inform you that your limit has been reached and that your transaction cannot be processed at this time.

*Apply for a signature line of credit to provide overdraft protection not affected by Regulation D.
